Mechanical engineers are creating the future in hundreds of different ways.

Share where a degree in mechanical engineering can take you!

Two of our students are pioneering life-saving drone technology designed to help first responders. See what they're doing and learn how you can help!

Stay up-to-date with alumni news and upcoming events on RoseSTEM. On RoseSTEM you will be able to access the alumni directory, register for events, submit Class Notes (birth announcements, promotions, etc.), post your resume, search job postings, and much more!

staff with questions and comments.

HELP MOLD TOMORROW'S MECHANICAL ENGINEERS

Generous alumni enable us to support the Mechanical Engineering Department. Please designate your gift to fund 12228 - Mechanical Engineering. To designate your gift to a specific competition team, please indicate the name of the team.
